Prices. All prices and other quotations not accepted to date are hereby cancelled.

Because of rapidly changing conditions we reserve the right to revise prices in this list if necessary.

All prices are for goods at our nursery unless otherwise stated.

Terms. 2% for cash, 10 days from date of invoice, except on packing, prepaid freight, Royalties, etc., which are net. 30 days net to buyers of known and established credit, otherwise cash with order, or 25 per cent with order and balance C.O.D. 1% per month interest will be charged after 60 days.

Pro-Rate. All orders are booked subject to crop yield and pro-rate, in the event a smaller crop is harvested than was anticipated.

Grading and Packing. Plants wider than tall are graded by width. Packing at cost, as usual. Plants will be packed to secure the lowest possible classification consistent with the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line. A moderate charge will be made for delivery by our trucks to areas over 50 miles distant from nursery.

Warranty. Seller gives no warranty, express or implied, as to the variety or productivity of any nursery stock he sells. Liability in all instances is limited to the purchase price. No liability is assumed by the seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargoes or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms they are to be returned.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

FOR YOUR CONVENIENCE, USE THE ORDER BLANK

New Items

In addition to our regular lines we are continually developing or introducing additional *novelties and specialties*. For the past 25 years we have doubtless imported the greatest assortment of new and rare woody plants brought into this country during that period, and at the same time have carried on a program of breeding various woody ornamentals, including Lilacs, Flowering Quinces, Flowering Fruit Trees, etc.

In order to call your attention to some of these items that are now available we have "boxed in" many plants of special interest.

For less than five of a kind and size of these items, please add 10%.

GARDEN ARISTOCRATS

We have again issued a special colored brochure describing and illustrating many of our finest items. Copies will be mailed to all nurserymen on our list, and additional copies will be available to all nurserymen. Write us for further information on this brochure.

ABBREVIATIONS

Letters A, B, C, D, E, etc., after variety names indicate sizes available.

DESCRIPTIONS

Short descriptions have been included in this list. Where further information may be desired it will be given promptly on request.

HARDINESS RATINGS

As this list goes all over the U. S. A. and also abroad, we believe it a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the zone in which it is considered hardy. Please understand that ratings show our honest opinion, but we disclaim all responsibility for their correctness. Please refer to map in center of book, used by courtesy of Arnold Arboretum and McGraw Hill Book Co.

PINTO TAG

We take pride in being a "Pinto Tag" nursery, enabling us to ship into nearly all California Counties with no point of destination inspection required.

LOCATION

Office and Sales Yard located on the old Oakland-San Jose Highway at Coyote Creek Bridge, about one mile north of San Jose City Limits. Other growing grounds are within a mile or two of the office. Visiting nurserymen are welcome at all times.

IMPORTANT NOTICE FOR EASTERN NURSERYMEN

Out here everything east of the Rockies is "Eastern."

During January and February we ship several heated refrigerator cars to eastern points. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point for pickup or reshipment. The total transportation charges for each car will be prorated among all customers who have goods in it.

Conifers

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABIES concolor (6)

WHITE FIR

The famous Silver Fir of the Sierras. Resistant to drought and heat. Moderately slow growing.

1 1/2 to 2 ft.....	2.50
15 to 18 in.....	2.25

nordmanniana (4)

NORDMANN FIR

One of the very best Firs. Needles dark glossy green above and silvery beneath.

1 1/2 to 2 ft.....	2.50
15 to 18 in.....	2.25
gal.75

pinsapo (6)

SPANISH FIR

Very regular and symmetrical. Stiff green needles.

1 1/2 to 2 ft.....	2.50
15 to 18 in.....	2.25
gal.75

pinsapo glauca (6)

BLUE SPANISH FIR

Foliage silvery. Slower and more compact grower than preceding variety.

4 in. pot grafted.....	.85
------------------------	-----

CEDRUS atlantica glauca (6)

BLUE ATLAS CEDAR

Young plants have a stiff open appearance but quickly develop into beautiful full specimens.

5 to 6 ft.....	5.00
4 to 5 ft.....	4.50
3 1/2 to 4 ft.....	3.50
2 1/2 to 3 ft.....	3.00
gal. 3 year grafts.....	1.00

atlantica glauca pendula (6)

WEeping BLUE ATLAS CEDAR

An exact counterpart of the beautiful Blue Atlas Cedar except that branches grow almost directly downward.

Sold out for this season.

CEDRUS (continued)

deodara (7)

DEODAR CEDAR

Makes a large graceful specimen tree. Foliage gray-green.

5	to 6	ft.	5.00
4	to 5	ft.	4.00
3	to 4	ft.	3.00
gal.			.55

deodara repandens (7)

SPREADING DEODAR CEDAR

A very attractive weeping form of picturesque habit. Should be staked for first few years.

2½	to 3	ft.	3.00
2	to 2½	ft.	2.50
1½	to 2	ft.	2.00

CHAMAECYPARIS lawsoniana ellwoodi (5)

ELLWOOD CYPRESS

A moderate grower of columnar habit. Foliage silvery blue, fine and lacy. Grafted plants have proven to be more vigorous and disease resistant.

3½	to 4	ft.	4.00
3	to 3½	ft.	3.50
2½	to 3	ft.	3.00
2	to 2½	ft.	2.50
1½	to 2	ft.	2.25
1	to 1½	ft.	2.00
gal.	grafted		.75

lawsoniana forsteckiana (5)

FORSTECK CYPRESS

Dwarf, globular form with dense crowded branchlets, giving the appearance of deep green moss.

4 in. pot grafted	.65
-------------------	-----

lawsoniana knowfeldensis (5)

KNOWFELD CYPRESS

Habit graceful, upright and arching. Sage green foliage.

2	to 2½	ft.	2.00
1½	to 2	ft.	1.75
gal.			.75

lawsoniana minima (5)

DWARF LAWSON CYPRESS

Extremely dwarf and compact with dark green plumose foliage.

gal. grafted	1.25
--------------	------

CHAMAECYPARIS (continued)

lawsoniana minima aurea (5)

GOLDEN DWARF LAWSON CYPRESS

Differs only from above in its golden foliage.

4 in. pot grafted..... **.85**

lawsoniana moerheimi (5)

MOERHEIM GOLDEN LAWSON CYPRESS

Bushy, erect habit. Tips of branches yellow variegated. A good sturdy grower and transplants easily.

gal. **.75**

lawsoniana nidiformis (5)

BIRDNEST CYPRESS

Branches semi-ascending and drooping toward tips. Natural growth wider than tall.

gal. **.75**

lawsoniana stewarti (5)

WINTERGOLDEN LAWSON CYPRESS

Growth slow, compact and erect. Remains as brilliantly golden in winter as in summer.

gal. **.75**

obtusa (3)

HINOKI CYPRESS

A very decorative Japanese tree; branches flattened, frond-like and drooping.

2 gal. **1.75**

obtusa gracilis (3)

SLENDER HINOKI CYPRESS

A slender pyramidal form.

gal. **1.00**

obtusa nana (3)

DWARF HINOKI CYPRESS

4 in. pot grafted..... **1.00**

pisifera aurea compacta nana (3)

YELLOW DWARF SAWARA CYPRESS

Extremely dwarf and compact. Golden acute foliage.

4 in. pot grafted..... **1.00**

squarrosa cyano-viridis (4)

BLUE GREEN MOSS CYPRESS

A very showy plant with soft finely textured blue-green-gray foliage. Grows fast, compact, and is hardy.

gal. **.75**

CRYPTOMERIA japonica nana (5)

DWARF CRYPTOMERIA

Slow growing globular habit.

gal.75

JUNIPERUS chinensis columnaris (4)

BLUE COLUMN CYPRESS

Erect formal pyramidal habit. Foliage slightly silvery.

7 to 8 ft.....7.00

6 to 7 ft.....6.00

chinensis Maney (4)

MANEY JUNIPER

Semi-erect, spreading bushy habit with a bluish cast in the color of foliage.

3 to 3½ ft.....3.00

2½ to 3 ft.....2.75

2 to 2½ ft.....2.50

1½ to 2 ft.....2.25

gal.75

chinensis Obelisk (4)

OBELISK CYPRESS

A hardy, narrow columnar form with very long, rigid needles of a fine, never-changing blue color. Requires no trimming.

3 to 3½ ft.....3.00

2½ to 3 ft.....2.75

2 to 2½ ft.....2.50

gal.75

chinensis pfitzeriana (4)

PFITZER JUNIPER

Fast growing spreading Juniper with deep green foliage.

gal.60

chinensis pfitzeriana glauca (4)

BLUE PFITZER JUNIPER

A blue form of Pfitzer Juniper.

gal.65

chinensis procumbens albo-variegata (4)

WHITELEAF CHINESE CREEPING JUNIPER

Growth slow, low and spreading, with attractive white variegation.

1½ to 2 ft.....2.50

1 to 1½ ft.....2.25

5 gal.2.50

gal.75

JUNIPERUS (continued)

chinensis "San Jose" (4)

SAN JOSE CREEPING JUNIPER

Found here as a sport of one of the creeping Junipers. Color is about sage green, much more pleasing than Chinese Creeping Juniper. Shows no variegation but has a mixture of adult and juvenile foliage. After many years test it has become very popular and is now our best seller in prostrate Junipers.

gal. **.75**

chinensis torulosa (4)

TWISTED CHINESE JUNIPER

Growth gracefully fanshaped, upright and arching. Dark green foliage.

gal. **.65**

conferta (5)

SHORE JUNIPER

Creeping form with light green foliage.

1½ to 2 ft. **2.25**

1 to 1½ ft. **2.00**

gal. **.65**

coxi (7)

COX JUNIPER

Handsome pyramidal tree with weeping branches.

gal. **.75**

horizontalis glauca (2)

BLUE CREEPING JUNIPER

Steel blue foliage throughout the year.

gal. **.75**

occidentalis glauca (4)

SILVER SIERRA JUNIPER

A fine silvery blue form of the Sierra Juniper. Habit slim and conical.

gal. **.75**

sabina tamariscifolia (4)

TAMARIX JUNIPER

Slow growing, low spreading Juniper with blue-green foliage.

gal. **.65**

JUNIPERUS (continued)

scopulorum Blue Haven (5)

BLUE HAVEN ROCKY MOUNT. JUNIPER

Fine textured foliage, deep blue.

Sold out for this season.

squamata meyeri (4)

MEYER JUNIPER

Irregular spreading habit. Foliage silvery blue.

1½ to 2 ft.....**2.00**

1 to 1½ ft.....**1.75**

gal. **.75**

virginiana lebretoni (3)

LEBRETON EASTERN REDCEDAR

Growth erect and compact. One of the most intensely glaucous conifers known.

7 to 8 ft.....**5.00**

6 to 7 ft.....**4.50**

4 to 5 ft.....**3.50**

3 to 4 ft.....**3.00**

gal. **.75**

LIBOCEDRUS chilensis (6)

CHILEAN INCENSE-CEDAR

A symmetrical pyramidal conifer. Foliage soft green.

6 to 7 ft.....**4.50**

5 to 6 ft.....**4.00**

4 to 5 ft.....**3.50**

2 to 2½ ft.....**2.25**

1½ to 2 ft.....**2.00**

gal. **.75**

decurrens (5)

INCENSE-CEDAR

A very symmetrical pyramidal form; tall and compact, with dark green foliage.

gal. **.65**

METASEQUOIA glyptostroboides (4-5)

DAWN REDWOOD

A beautiful, rapid growing deciduous conifer resembling native California Redwood.

Sold out for this season.

PICEA excelsa (2)

NORWAY SPRUCE

Most popular Conifer for outdoor Christmas trees.

1½ to 2 ft.....**2.00**

5 gal. **2.00**

gal. **.75**

PICEA (continued)

glauca conica (2)

DWARF ALBERTA WHITE SPRUCE

Dense, slow growing conical tree.

gal.1.00

omorika (4)

SERBIAN SPRUCE

Narrowly pyramidal tree with graceful drooping branches.

4 in. pot..... .60

orientalis aurea (4)

GOLDEN ORIENTAL SPRUCE

Tall tree with densely compact bronzy golden needles on semi-drooping branches.

4 in. pot..... .60

pungens (green) (2)

COLORADO SPRUCE

A formal tree with close stiff branches. Color varies from light to dark green.

2 to 2½ ft.....3.00

1½ to 2 ft.....2.50

gal.85

pungens moerheimi (2)

MOERHEIM BLUE SPRUCE

Improved deep blue form of Colorado Spruce.

4 in. pot grafted.....1.00

smithiana (6)

HIMALAYAN SPRUCE

Tall pyramidal tree with long drooping branches.

2 to 2½ ft.....2.50

1½ to 2 ft.....2.25

PINUS mugo mughus (2)

DWARF MUGHO PINE

Probably the dwarfest of all Pines. Grows about as wide as high.

5 gal.2.50

gal.75

radiata (7)

MONTEREY PINE

Medium sized, picturesque fast growing pine.

2½ to 3 ft.....2.00

gal.55

SEQUOIA sempervirens (7)

REDWOOD

Tall, graceful native of California.

gal.60

TAXUS baccata aurea (4)

GOLDEN ENGLISH YEW

Tree with broad, roundish head. Foliage golden.
4 in. pot..... .60

baccata aurea pendula (4)

WEeping GOLDEN ENGLISH YEW

4 in. pot..... .60

baccata fastigiata (6)

IRISH YEW

Columnar habit, dark green foliage. Slow growing.

5	to 6	ft.....	5.50
4½	to 5	ft.....	5.00
4	to 4½	ft.....	4.50
3½	to 4	ft.....	4.00
3	to 3½	ft.....	3.50
2½	to 3	ft.....	3.00
2	to 2½	ft.....	2.50

10% discount on orders of 20 or more of total ordered.

baccata pendula (6)

SPREADING ENGLISH YEW

Hardy weeping form, fine for base planting.
gal.75

baccata Silver Green (6)

SILVER GREEN SPREADING YEW

A neat compact spreading form with rich deep green foliage with a slight silvery cast.
gal.75

THUYA occidentalis pyramidalis (2)

PYRAMIDAL EASTERN ARBORVITAE

Narrow pyramidal habit. Deep rich green foliage.

5	to 6	ft.....	4.00
4	to 5	ft.....	3.50
3½	to 4	ft.....	2.75
gal.60

orientalis aurea nana (5-6)

BERCKMANS GOLDEN ARBORVITAE

Dwarf, compact form of rich golden color.

15	to 18	in.....	2.25
12	to 15	in.....	2.00

orientalis compacta (4-5)

COMPACT ORIENTAL ARBORVITAE

A slow-growing, compact, green form.

15	to 18	in.....	2.25
12	to 15	in.....	2.00

•

For a complete and up-to-date descriptive list of
BUSH, CLIMBING and TREE ROSES,
ask for our List No. 5701.

Broad Leaved Evergreens

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABELIA floribunda (8)

MEXICAN ABELIA; RED ABELIA

Small shrub with glossy dark green foliage producing tubular rosy red flowers 1½ to 2 inches long. Requires partial shade.

gal.50

hyb. Edward Goucher (6)

Similar to *A. grandiflora* but bearing lilac-pink instead of white flowers in great profusion throughout the summer.

gal.50

ARBUTUS unedo (7)

STRAWBERRY MADRONE

Large, handsome shrub with dark green leaves. Bears red strawberry-like fruits in winter.

Sold out for this season.

ARDISIA japonica (6)

JAPANESE ARDISIA

An attractive slow growing acid-loving shrub to 18 in. high. When only four or five inches tall it commences to bear pale pink flowers followed by showy red berries.

gal.65

ARISTOTELIA racemosa (8?)

NEW ZEALAND WINEBERRY

An evergreen tree to 15 or 20 ft. Leaves about 5 inches long and deeply serrate, light green on surface and ruddy beneath. Small rose colored flowers are followed by dark red or nearly black berries in clusters.

gal.60

AUCUBA japonica (male) (7)

JAPANESE AUCUBA

All of our berry-bearing Aucubas are grown from cuttings taken from female plants but must be pollinized by male plants in order to produce berries.

gal.65

AUCUBA (continued)

japonica Croton (7)

CROTONLEAF AUCUBA

Slower growing but otherwise similar to other variegated Aucubas but the brilliance and intensity of its golden variegation far surpasses them. This is a male form and can be used as a pollinizer.

gal. **.75**

japonica fructo-albo (7)

Foliage profusely and brightly silver-variegated. Fruit pale pinkish-buff. Requires shade.

gal. **.65**

japonica maculata (7)

GOLD DUST AUCUBA

Large green leaves covered with yellow dots. Berries red.

gal. **.65**

japonica nana (7)

DWARF AUCUBA

A dwarf green leaved form bearing heavy clusters of unusually large berries.

5 gal. **2.50**

gal. **.65**

japonica salicifolia (7)

LANCELEAF AUCUBA

Leaves clear deep green, long and narrow. Bears heavy clusters of bright red berries.

gal. **.65**

japonica "San Jose" (7)

SAN JOSE DWARF AUCUBA

A slower growing form with a somewhat spreading habit. Foliage, large, shiny dark green with no variegation.

gal. **.65**

AZARA gilliesi (7-8?)

GOLDEN AZARA

A beautiful shrub with holly-like foliage. Bears golden flowers in showy drooping racemes in winter.

gal. **.65**

AZARA (continued)

integrifolia (9)

GOLDSPIRE AZARA

Small tree to 15 ft. Bears deliciously fragrant small yellow flowers in masses on drooping branches.

gal.65

lanceolata (9)

LANCELEAF AZARA

Handsome shrub or small tree with slightly drooping branches bearing masses of fragrant yellow flowers.

gal.60

BERBERIS corallina compacta (4)

(B. stenophylla nana compacta)

CORAL BARBERRY

A hardy evergreen hybrid from Ireland. Has small dark green foliage. Entire plants are covered with brilliant yellow flowers in Spring. A true dwarf suitable for rock gardens.

gal.60

stenophylla irwini (B. gracilis) (5)

IRWIN BARBERRY

Slow growing shrub of graceful habit. Flowers deep yellow.

gal.60

BRUNFELSIA calycina (7)

BRAZIL RAIN TREE

Flowers open deep violet changing to white.

gal.60

CALLISTEMON citrinus splendens (9)

BRILLIANT BOTTLEBRUSH

The most vividly colored red "Bottlebrush" we have ever seen. Heavy bloomer and of compact habit.

gal.60

CEANOTHUS gloriosus (7-8)

POINTREYES CEANOTHUS

A splendid prostrate form. Flowers large, profuse and deep blue. Grows well and covers the ground like a mat.

gal.60

CEANOTHUS (continued)**griseus horizontalis (8-9)****CARMEL CREEPER**

A fast growing, spreading variety. Flowers light blue.

gal.60

impressus (9)**SANTA BARBARA CEANOTHUS**

Flowers are deep blue in extreme profusion. Usually grows wider than high.

gal.50

CERATONIA siliqua (8)**CAROB; ST. JOHN'S BREAD**

Round-headed evergreen tree of medium size.

gal.55

CHOISYA ternata (6-7)**MEXICAN-ORANGE**

A compact free blooming shrub. Attractive green foliage; flowers pure white and fragrant.

2 to 3 ft.2.50

1½ to 2 ft.2.25

1 to 1½ ft.2.00

gal.55

CISTUS Doris Hibberson (7)**PINK ROCKROSE**

Handsome small sun-loving Rockrose with gray-green foliage and clear pink flowers in profusion.

gal.60

CITRUS limon meyeri (8?)**MEYER DWARF LEMON**

Useful as well as ornamental. Makes a good rounded shrub. Flowers and fruits freely even when very young. Lemons are deep yellow and of good quality. Our stock is clean and can be shipped anywhere.

2½ to 3 ft.2.75

2 to 2½ ft.2.50

1½ to 2 ft.2.25

1 to 1½ ft.2.00

5 gal.2.00

gal.60

Eureka Lemon (9?)

Medium sized fruit, with few seeds. Ripens almost continuously throughout the year.

gal.60

CITRUS (continued)

Rangpur Lime (9½)

Orange-red tangerine shaped fruit.

2½ to 3 ft.....	2.75
2 to 2½ ft.....	2.50
1½ to 2 ft.....	2.25
gal.60

sinensis nana (9?)

DWARF ORANGE

An attractive dwarf form excellent for patio use.

gal.	1.00
-----------	-------------

sinensis Washington Navel Orange (9)

Grown in bush form.

gal.75
-----------	------------

CLETHRA arborea (9)

LILY-OF-THE-VALLEY CLETHRA

A vigorous large shrub of quick growth. Pure white, richly fragrant flowers borne in terminal panicles strongly resemble those of Lily-of-the-Valley. Requires acid soil.

5 gal.	2.00
gal.60

CORNUS capitata (7)

EVERGREEN DOGWOOD

Slow growing evergreen tree bearing cream colored flowers followed by attractive fruits.

5 gal.	2.50
gal.60

CORREA harrisi (9)

RED AUSTRALIAN CORREA

Small shrub bearing tubular flowers, solid red. Blooms from about November thru March. Will thrive in sun or shade.

gal.60
-----------	------------

magnifica (9)

YELLOW AUSTRALIAN CORREA

Tallest growing of the forms listed.

gal.60
-----------	------------

pulchella (9)

PINK AUSTRALIAN CORREA

Low growing shrub with dainty bell-shaped flowers from about mid-October thru mid-April.

gal.50
-----------	------------

COTONEASTER apiculata (4)**CRANBERRY COTONEASTER**

Far superior to any of the other low spreading growers. The berries are gorgeous, largest of the Cotoneasters so far as we know. Our grafted plants commence bearing the first year as a rule.

5 gal. 2.50

gal.60

conspicua decora (7)**NECKLACE COTONEASTER**

Small graceful shrub, almost prostrate. Bears an enormous crop of bright red berries all along the slender, arching branches.

gal.60

CRINODENDRON dependens (8)**WHITE LILY TREE**

An excellent small evergreen tree of quick growth; of good habit with gray-green foliage and bearing hanging white bell-shaped flowers. Grows well in any good soil.

gal.50

DAPHNE**mantensiana (7) (new)****MANTEN DAPHNE**

Compact habit. Flowers profusely during spring and early summer. Orchid-mauve, fragrant.

18 to 24 in. 2.50

15 to 18 in. 2.25

12 to 15 in. 2.00

2 gal. 1.75

odora alba (7-8)**WHITE WINTER DAPHNE**

18 to 24 in. 2.00

15 to 18 in. 1.60

odora marginata (7-8)**YELLOWEDGE WINTER DAPHNE**

Deep green leaves edged creamy white, pink fragrant flowers in clusters.

18 to 24 in. 2.00

15 to 18 in. 1.60

12 to 15 in. 1.40

odora Rose Queen (7-8)**ROSE QUEEN WINTER DAPHNE**

A distinct form of very compact habit. Leaves dark green. Flowers are deep rose pink, large and in heavy clusters.

Sold out for this season.

DODONAEA viscosa purpurea (8?)

PURPLE LEAVED DODONAEA

A rapid-growing New Zealand shrub with bronzy leaves turning purple in Winter.

gal.65

DRIMYS winteri (9)

WINTERSBARK DRIMYS

Small South American tree of the Magnolia family bearing small Jasmine-scented pure white flowers. Foliage aromatic.

5 gal.2.50

gal.75

ELAEAGNUS pungens maculata (7)

GOLDEN ELAEAGNUS

The entire central part of leaves is golden yellow with green margin.

gal.60

ESCALLONIA (7)

gal.50

Uniform price for all types below.

C. F. Ball, bright red.

organensis, pink and white.

EURYOPS pectinatus (9)

GOLDEN SHRUB-DAISY

African evergreen shrub with gray-white foliage. Rich yellow flowers in spring.

gal.60

FREMONTIA (9)

FREMONTIA

A small native tree or large shrub requiring a dry location. Very showy large yellow flowers are borne profusely in late spring and summer.

gal.60

GARDENIA radicans (9)

A miniature Gardenia having glossy foliage and small, white, fragrant flowers.

gal.65

GENISTA cinerea (7)

ASHY WOADWAXEN

Bright yellow; very free flowering.

gal.60

monosperma pendula (7)

BRIDALVEIL BROOM

A graceful broom of weeping habit bearing a profusion of drooping white flowers.

gal.60

GREVILLEA rosmarinifolia (9)

ROSEMARY GREVILLEA

Bushy, compact, upright habit. Flowers rose pink.
gal.50

HEBE menziesi (8-9)

MENZIES HEBE (Veronica)

Small leaved, compact habit. Flowers white.
gal.60

ILEX — HOLLY

All are grafted and female. Due to climatic conditions we have given up production of field grown stock but shall continue offering young grafted plants.

Uniform price for all types below.

gal.80

4 in. pot grafted..... .65

altaclarensis wilsoni (7)

aquifolium (5) ENGLISH HOLLY

aquifolium, male (5)

aquifolium Golden Variegated (5)

(4 in. pots only)

aquifolium pendula (gal. only)

aquifolium Silver Variegated (5)

(4 in. pots only)

aquifolium Van Tol (5) (4 in. pots only)

cornuta burfordi (5) BURFORD HOLLY,
(gal. only)

San Jose hybrid (7) (4 in. pots only)

JASMINUM parkeri (7)

PARKER JASMINE

A dainty miniature shrub of rounded, compact habit. Flowers bright yellow in profusion. Fine for rock gardens.

gal.60

LEPTOSPERMUM - TEATREE (9)

keatleyi, one of the finest of the species; large single pink flowers.

Red Damask, soft red.

gal.50

LEUCADENDRON argenteum (10)

SILVER TREE

The famous Silver Tree of the Cape of Good Hope. Bark, branches and especially foliage are intensely silvery. Suitable only to warm climates.

4 in. pot..... **.65**

LOROPETALUM chinense (7)

FRINGEFLOWER

A slow growing, shade loving shrub that starts blooming freely while still small. The graceful white flowers have strap-shaped petals like Witch Hazel and appear in late winter and early spring.

gal. **.60**

MAGNOLIA delavayi (9)

DELAVAY MAGNOLIA

Evergreen tree with extremely attractive large tropical appearing foliage up to 14 in. long by 8 in. wide. Flowers creamy white, slightly fragrant.

5 gal. **3.75**

grandiflora (7)

SOUTHERN MAGNOLIA

A handsome tree with large glossy green foliage. The huge creamy-white fragrant flowers are up to 8 inches in diameter.

gal. **.50**

grandiflora St. Mary (7)

ST. MARY MAGNOLIA

Demand has for years been far in excess of supply. Flowers are very large and plants bloom when young.

5 gal. grafted..... **3.00**

gal. grafted **1.25**

MAHONIA lomariaefolia (6?)**CHINESE HOLLYGRAPE**

A relatively new Mahonia from Asia having large pinnate leaves up to 15 in. in length, each leaflet having deeply serrated and waved margins. Flowers are larger and brighter than American varieties, in clusters of as many as six or eight spikes, a brilliant chrome yellow. Habit of growth is somewhat more vigorous than *M. aquifolium* and the effect of the plant is tropical and very interesting.

5 gal. **2.50**

gal. **.75**

4 in. pot..... **.65**

4 in. pot recommended for eastern L. C. L. shipments.

MICHELIA compressa (9)

Tall evergreen tree related to Magnolia. Has beautiful glossy green leaves. Flowers are small, creamy white, and fragrant.

gal. **.65**

NANDINA domestica (6)**NANDINA; HEAVENLY BAMBOO**

Shrub to about 4 ft. with attractive divided leaves turning brilliant red in autumn.

gal. **.50**

NERIUM oleander (9)**OLEANDER**

Our stock is clean, free from disease and can be shipped anywhere.

B 3 to 4 ft..... **2.00**

E 5 gal. **1.75**

G gal. **.50**

Letters after varieties indicate sizes available.

Com. Barthelemy, large double red. EG

Double Pink, double rose pink. BG

Double White, large semi-double to double. BG

Double Yellow, double light yellow. G

Jannoch Single Red, G

Mrs. Roeding, large double salmon pink. BEG

Mrs. Swanson, very fine double soft pink. EG

Pink Beauty, single pink. BG

Prof. Bodkin, single red. BEG

Single White, BG

OLEA europaea (8-9)**OLIVE**

Grown in tree form for ornamental purposes. Propagated from one of the best fruiting varieties.

5 gal. **2.25**
gal. **.60**

OSMANTHUS armatus (7)**CHINESE OSMANTHUS**

A handsome species with deep green foliage up to 7 in. long. The fragrant white flowers are followed by small egg-shaped blue berries.

gal. **.60**

delavayi (7-8)**DELAVAY OSMANTHUS**

A very popular shrub that "has everything"—compact habit, arching branches, small attractive foliage and in the spring has possibly the richest scented white flowers of any in this genus.

gal. **.60**

forresti (7)**FORRESTS OSMANTHUS**

A vigorous shrub with attractive foliage from 5 to 7 in. long with wavy margins. Flowers creamy yellow and deliciously fragrant.

5 gal. **2.00**
gal. **.60**

fragrans (7)**SWEET OLIVE**

Large shrub bearing small white, deliciously fragrant flowers.

gal. **.60**

ilicifolius (6)**HOLLY OSMANTHUS**

Bush of slow compact growth with foliage similar to English Holly. Flowers in fall, pure white. Very attractive.

5 gal. **2.25**
gal. **.60**

ilicifolius variegatus (6)

Small holly-like foliage, edged creamy white.

gal. **.75**

OSMANTHUS (continued)

San Jose hybrid (8)

SAN JOSE OSMANTHUS

A tall shrub or small tree splendid for background planting. Attractive holly-like foliage. Produces fragrant creamy yellow flowers in fall.

5 gal. **2.00**
gal. **.60**

suavis (7)

Closely related to *O. delavayi* but of upright habit. Flowers are white and fragrant.

gal. **.60**

PHOTINIA arbutifolia (8-9)

CHRISTMAS BERRY; TOYON

Native California shrub to 15 ft. bearing bright red berries.

gal. **.60**

serrulata nova lineata (7)

REDTWIG CHINESE TOYON

A very attractive sport of Chinese Toyon. New foliage is very light bronze and matured leaves are dark green marked white along midrib. Bark on new growth is a vivid bright red.

gal. **.60**

PIERIS japonica (5)

LILY-OF-THE-VALLEY SHRUB

An attractive bushy shrub of medium height with handsome glossy foliage. The white bell-shaped flowers are borne in profusion on long drooping racemes.

gal. **.60**

PROSTANTHERA rotundifolia (9)

ROUNDLEAVED MINTBUSH

Small leaved medium-sized shrub. Flowers blue or purple.

gal. **.65**

PYRACANTHA hyb. "San Jose" (7)**SAN JOSE FIRETHORN**

Bears the largest berries we have seen on a pyracantha (up to $\frac{5}{8}$ in. wide) in enormous clusters that are well placed. Color is nearly red with a slight orange tone.

gal.50

Government Red (5)

Bears red berries in large clusters; hardy.

gal.50

PYRUS kawakami (8?)**EVERGREEN PEAR**

A handsome shrub or small tree with large, luxuriant foliage. White fragrant flowers massed in spring.

gal.75

QUERCUS suber (7)**CORK OAK**

A fine broad-headed evergreen tree.

gal.60

RAPHIOLEPIS indica rosea (7)**PINK INDIA RAPHIOLEPIS**

A slow growing shrub of good habit. Heavy dark green foliage assuming bronzy winter tints. Flowers are soft pink in the spring followed by blue berries. Grafted plants.

$1\frac{1}{2}$ to 2 ft. 2.25

1 to $1\frac{1}{2}$ ft. 2.00

gal.75

COATES CRIMSON RAPHIOLEPIS (7)

(R. indica rubra) Pat. No. 1138.

It is slow growing, compact, about as wide as tall, and is ideal for base planting and where a low growing, permanent evergreen flowering shrub is desired.

The flowers are borne in numerous clusters, light to fairly deep crimson, and even on small pot plants. All stock offered is grafted and will come true to color and habit.

gal. 1.25

RAPHIOLEPIS (continued)**indica "Bill Evans"**

A compact growing form bearing a profuse crop of flowers, mainly double, opening to deep rose-pink.

gal. 1.00

ROMNEYA coulteri (5)**MATILIJA POPPY**

A large native shrub with blue-green foliage. Produces huge snow white "crepe paper" flowers with masses of golden stamens in the center.

gal.50

ROSMARINUS foresteri (8)**SANTA BARBARA ROSEMARY**

A semi-prostrate shrub.

gal.75

officinalis prostratus (6)**CREEPING ROSEMARY**

Excellent ground cover; fast growing.

gal.50

SARCOCOCCA hookeri humilis (7)**SMALL HOOKER SARCOCOCCA**

Growth very low and spreading, almost prostrate. The white flowers are small but profusely borne and quite fragrant. Likes part shade and acid soil.

gal.75

ruscifolia (7)**FRAGRANT SARCOCOCCA**

Handsome and desirable for part or full shade. Foliage glossy; flowers white, small and fragrant. Berries deep purplish red.

5 gal. 2.00

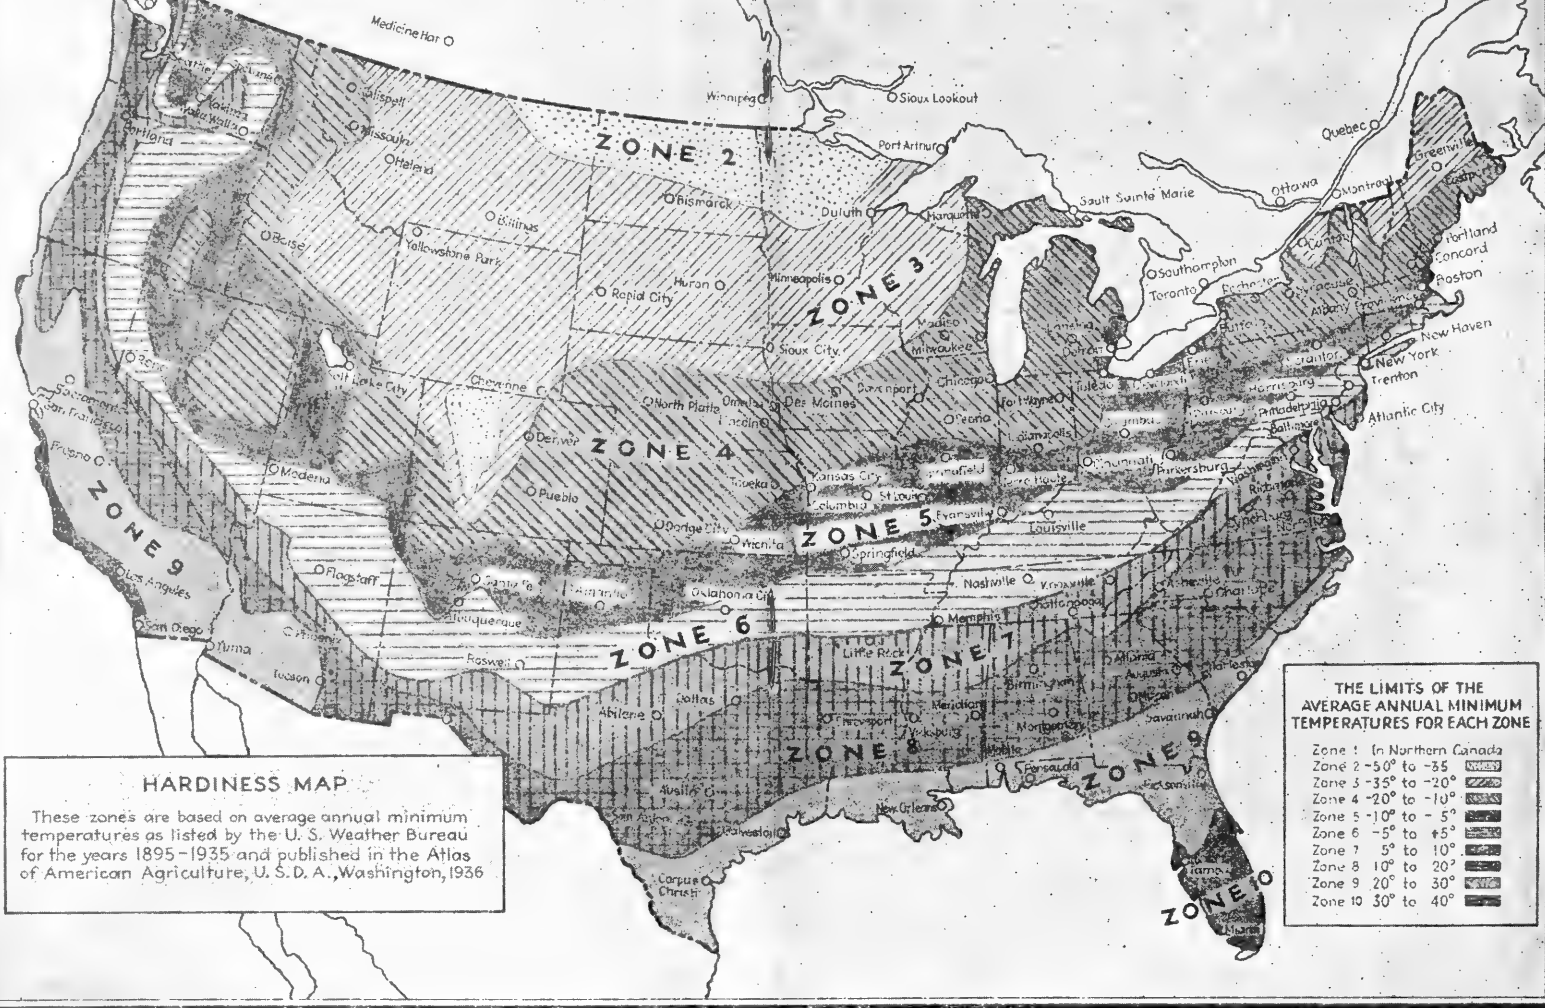

gal.50

saligna (7)**WILLOWLEAF SARCOCOCCA**

A Himalayan, shade loving, graceful shrub bearing white flowers followed by purple berries.

gal.50

HARDINESS MAP

HARDINESS MAP

These zones are based on average annual minimum temperatures as listed by the U. S. Weather Bureau for the years 1895-1935 and published in the Atlas of American Agriculture, U. S. D. A., Washington, 1936

THE LIMITS OF THE AVERAGE ANNUAL MINIMUM TEMPERATURES FOR EACH ZONE

Zone 1	In Northern Canada
Zone 2	-50° to -35°
Zone 3	-35° to -20°
Zone 4	-20° to -10°
Zone 5	-10° to -5°
Zone 6	-5° to +5°
Zone 7	+5° to +10°
Zone 8	+10° to +20°
Zone 9	+20° to +30°
Zone 10	+30° to +40°

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number or a smaller number should be hardy with you. If you want to gamble on those rated one zone greater, there is at least a chance for success but two zones greater will probably be hopeless.

For full explanation of the entire system see Page 2.

SKIMMIA foremanni (7)

FOREMANN SKIMMIA

Another fine, slow growing, shade loving evergreen. Leaves are large and glossy; berries bright scarlet. Does not require acid soil.

gal. female **.75**
gal. male **.75**

STENOCARPUS sinuatus (9)

FIREWHEEL TREE

One of Australia's most beautiful flowering evergreen trees with large oak-like leaves. Bears a profusion of bright red, wheel-shaped, showy flowers.

2 gal. **1.75**

TERNSTROEMIA japonica

(Cleyera japonica) (6-7)

TERNSTROEMIA

Foliage Camellia-like with reddish tint during the winter. Produces small fragrant flowers in summer followed by red berries.

gal. **.75**

TRACHELOSPERUM jasminoides (8-9)

(Rhynchospermum jasminoides)

STAR JASMINE

These plants can be used as ground cover or staked and grown as a flowering shrub. Thrive equally well in sun, shade or part shade. (See under Climbers also.)

gal. **.60**

ULMUS parvifolia sempervirens (5)

EVERGREEN ELM

A small tree with graceful arching branches.

5 gal. **2.25**

VIBURNUM burkwoodi (5)**BURKWOOD VIBURNUM**

Well-known shrub with rich glossy green foliage turning purplish bronze in winter. Flowers in large clusters, intensely fragrant, pink in bud and opening white.

5 gal. **1.75**

gal. **.55**

chenaulti (5)**CHENAULT VIBURNUM**

Similar to *V. burkwoodi* but with even larger flower-heads and finer foliage.

gal. **.60**

cinnamomifolium (8)**CINNAMON VIBURNUM**

Similar to *V. davidi* with larger, handsomer foliage. Much faster growing, making a fairly large shrub.

gal. **.60**

davidi (8)**DAVID VIBURNUM**

A low, spreading compact shrub. Leaves leathery, large and very attractive. Blooms profusely in small white clusters followed by turquoise blue berries. Requires shade.

gal. **.75**

XYLOSMA senticosa (8)

Spreading evergreen shrub with light glossy-green foliage.

gal. **.55**

GRAFTED RHODODENDRONS

We are agents for **Cottage Gardens Co.** of Eureka, California, and offer an extensive list of varieties in assorted sizes, all flower budded, for West Coast delivery this winter. Write us for quotations.

Flowering Fruit Trees

All plants in this section will be dug "bare roots." Grading is by caliper and approximate height, except Cherries.

(Orders must be in multiples of 5 of one size and kind.)

(2 stems 20% less)

alba Young's Weeping (2)

In this form all branches droop from the start, in a very pleasingly irregular manner. Must be staked to make an erect trunk of desired height.

8 to 10 ft. branched.....	2.00
6 to 8 ft. branched.....	1.60

CORNUS florida (4)

FLOWERING DOGWOOD

Large shrub; "flowers" in four large white petal-like bracts. The dark green leaves turn bright red in fall.

gal.50
-----------	-----

florida rubra (4)

PINK FLOWERING DOGWOOD

A beautiful pink flowering form in great demand.

5 gal.	3.75
-------------	------

kousa (5)

KOUSA DOGWOOD

This variety makes a large shrub and should be better known in California. The cream colored "flowers" are composed of pointed bracts which become heavily stained red with age. Foliage assumes beautiful wine color in fall. Does not require acid soil.

gal.50
-----------	-----

CORNUS (continued)

kousa chinensis (5)

CHINESE KOUSA DOGWOOD

Flowers creamy-white, flushed with rose as they mature. Foliage colors beautifully in fall.

Sold out for this season.

CRATAEGUS - HAWTHORN

Autumn Glory (5)

A hybrid between the large fruited Mexican Thorn and the English Hawthorn. The result is a tree of vigorous erect growth with grayish bark and dark green leathery leaves formed like those of its English parent. The flowers are white, followed by a remarkable profusion of large, glossy brilliant red berries early in fall, all along the branches.

8 to 10 ft. branched.....	1.75
6 to 8 ft. branched.....	1.60
5 to 6 ft. branched.....	1.20

carrierei (4)

CARRIERE HAWTHORN

Large red berries, borne in profusion in clusters all over the tree. Growth erect and not wide spreading.

8 to 10 ft. branched.....	1.75
6 to 8 ft. branched.....	1.60
5 to 6 ft. branched.....	1.20

cordata (4)

WASHINGTON THORN

One of our handsomest small trees. Leaves deep glossy green assuming beautiful red and yellow tints late in the fall. Flowers are white followed by large clusters of glossy red berries.

Sold out for this season.

oxyacantha Double White (4)

DOUBLE WHITE HAWTHORN

6 to 8 ft. branched.....	1.60
5 to 6 ft. branched.....	1.20

oxyacantha pauli (4)

PAUL'S DOUBLE SCARLET HAWTHORN

8 to 10 ft. branched.....	1.75
6 to 8 ft. branched.....	1.60
5 to 6 ft. branched.....	1.20

DAVIDIA involucrata (6)

DOVE TREE

A rare and famous tree! It covers itself in spring with hanging white flowers (bracts) up to 6 inches long.

2 gal.	5.00
gal.	3.50

DIOSPYROS kaki Fuyu (7)

PERSIMMON

A prolific bearer of fruit that is never astringent or puckery.

6 to 8 ft. branched.....	2.50
5 to 6 ft. branched.....	2.00
4 to 5 ft. branched.....	1.75

kaki Hachiya (7)

Bright red, oblong conical fruit. Flesh deep yellow, soft and jelly-like when ripe.

Sold out for this season.

EVODIA hupehensis (5)

HUPEH EVODIA

Shade tree from China to 50 ft. Bears small white flowers in broad pyramidal clusters.

gal.60
-----------	------------

FAGUS sylvatica (4)

EUROPEAN BEECH

Slow growing shade tree of considerable merit. Attractive dark green leaves.

gal.85
-----------	------------

sylvatica purpurea (4)

PURPLE EUROPEAN BEECH

A dark purple leaved form of compact habit.

gal.	1.25
-----------	-------------

FRAXINUS velutina glabra (6)

MODESTO ASH

A very fine shade and street tree of vigorous growth and glossy green foliage. Particularly popular in dry, hot regions.

8 to 10 ft. branched.....	1.50
6 to 8 ft. branched.....	1.25
5 to 6 ft. branched.....	.85
5 gal.	2.00

GINKGO biloba (4)

GINKGO

Large tree of spreading habit. Leaves fan-shaped, clear green in summer to soft yellow in fall.

4 to 5 ft. branched.....	2.00
3 to 4 ft. branched.....	1.75

KOELREUTERIA paniculata (5)

CHINA-TREE

Small tree producing panicles of bright yellow flowers.

gal.50
-----------	------------

LABURNUM vossi (5)

LONGCLUSTER GOLDENCHAIN

Small tree of rapid growth. Leaves clover-shaped. Flowers fragrant and deep yellow, in long drooping racemes, suggestive of yellow Wisteria borne on a tree.

5 to 6 ft. branched.....	1.60
4 to 5 ft. branched.....	1.35
3 to 4 ft. branched.....	1.10

LIQUIDAMBAR styraciflua (4)

AMERICAN SWEETGUM

Leaves maple-like, known for their vivid autumnal coloring. Makes a beautiful symmetrical tree of pyramidal habit.

5 gal.	2.25
gal.60

LIRIODENDRON tulipifera (4)

TULIPTREE

A stately tree of moderate growth. Large rich green foliage. Flowers tulip-shaped, greenish-yellow marked with orange inside.

5 gal.	2.25
gal.60

MORUS Fruitless Mulberry (4-5)

A splendid drought resistant shade tree.

10 to 12 ft. branched.....	2.00
8 to 10 ft. branched.....	1.65
6 to 8 ft. branched.....	1.25

Mapleleaf Mulberry (4-5)

10 to 12 ft. branched.....	2.00
8 to 10 ft. branched.....	1.65
6 to 8 ft. branched.....	1.25

PHELLODENDRON amurense (3)

AMUR CORKTREE

Has cork-like bark and green pinnate leaves with small greenish flowers.

6 to 8 ft.....	2.00
5 to 6 ft.....	1.75
4 to 5 ft.....	1.50

PISTACIA chinensis (5)

CHINESE PISTACHE

Grows rapidly, has large pinnate leaves and is a beautiful sight when the leaves turn vivid crimson in fall.

gal. (staked)60
---------------------	-----

PLATANUS orientalis (5)

EUROPEAN SYCAMORE; ORIENTAL PLANE

Well-known, large and handsome street and shade tree. Leaves large, dense and bright green. All our stock grown by cuttings taken from our selected blight resistant trees.

12 to 14 ft. branched.....	3.00
10 to 12 ft. branched.....	2.25
8 to 10 ft. branched.....	1.50
6 to 8 ft. branched.....	1.20

POPULUS nigra italica (3)

LOMBARDY POPLAR

Tall, narrow, columnar tree.

14 to 16 ft. branched.....	3.00
12 to 14 ft. branched.....	2.50
10 to 12 ft. branched.....	2.00
8 to 10 ft. branched.....	1.50
6 to 8 ft. branched.....	1.25

ROBINIA hispida macrophylla (5)

SMOOTH ROSE-ACACIA

Bears a great profusion of large clusters of flowers in spring exactly like large lavender-pink sweet peas. Bloom first season after planting.

Heavy 6 ft. stems (top grafted).....	3.50
--------------------------------------	------

hybrida Monument (5)

MONUMENT LOCUST

Erect growing tree, to 15 or 20 feet. Flowers large, soft lavender pink.

8 to 10 ft. branched.....	2.00
6 to 8 ft. branched.....	1.75
5 to 6 ft. branched.....	1.50

pseudacacia decaisneana (3)

PINK LOCUST

Large tree with pink colored flowers. Drought and heat resistant.

12 to 14 ft. branched.....	3.00
10 to 12 ft. branched.....	2.50
8 to 10 ft. branched.....	2.00

SOPHORA japonica (4)

JAPAN PAGODA-TREE

Medium sized tree with light yellow flowers borne on terminal panicles.

gal.60
-----------	-----

ULMUS pumila (4)

SIBERIAN ELM; CHINESE ELM

A fine shade and street tree recommended for arid regions. Fast growing.

6 to 8 ft. branched.....	1.25
--------------------------	------

sp. "Buisman Elm" (4)

Small to medium sized broad-leaved tree resistant to Dutch Elm disease.

6 to 8 ft.....	1.75
----------------	------

ZELKOVA serrata (5)

JAPANESE ZELKOVA

Small, attractive, elm-like tree; disease resistant.

gal.60
-----------	-----

Lilacs

SYRINGA vulgaris (3)

We fully believe that our active propagating list embraces the most up-to-date collection of lilacs offered to the trade in this country.

It seems absurd to see so many ancient varieties still being listed. They were all good when originated 75 or 100 years ago but there has been plenty of progress in the meantime, particularly in the size of the individual flowers or "florets" as they are sometimes called and also in a wider range of color tones. If your collection is not really up-to-date why not do something about it?

All lilacs from 1½ ft. up have been pinched and are well-developed, branched plants.

For Eastern shipments we recommend the 1½ to 2 ft. grade.

(Lilacs must be ordered in multiples of 5 of each size and variety as they are bundled in that way when dug.)

1957-1958 INTRODUCTIONS

PINK BEAUTY

This beautiful new **single** cyclamen-pink lilac has excellent, freely borne, clusters with individual florets well placed, making an attractive fragrant bouquet. The plants grow bushy and vigorously.

3	to 4	ft.	1.75
2	to 3	ft.	1.40
1½	to 2	ft.	1.25

SOUVENIR DE GEORGES TRUFFAUT

A magnificent novelty with very long and broad thyrses, enormous flowers, pale lilac flushed mauve, clearer eye. Flowers often **semi-double**.

1½	to 2	ft.	1.25
----	------	-----	-------	-------------

NOVELTIES

B 3	to 4 ft. branched.....	1.75
C 2	to 3 ft. branched.....	1.50
D 1½	to 2 ft. branched.....	1.25

Letters after varieties indicate sizes available.

CLARKE'S GIANT, CD, Plant Pat. No. 754.

The flowers are **single**, soft gentian blue of enormous size, 1¼ to 1½ inches across, borne in huge clusters of unusual pyramidal form, up to 12 in. or better and 7 to 8 in. wide at base. Flower clusters are carried well above the large foliage. Fragrance leaves nothing to be desired.

ESTHER STALEY, CD, Plant Pat. No. 768.

Fills all the requirements of a good single pink lilac. Opening buds are red; flowers, large **single**, and pure pink without the usual lavender tinge. Clusters are of good size and produced freely in midseason; growth very vigorous.

PINK SPRAY, BCD, Plant Pat. No. 831.

A delightful **single** pink variety which is earlier than Esther Staley and a somewhat softer pink, contrasting well with the dark rosy mauve buds. The flowers have a daintiness and charm which is hard to describe and is enhanced by the stamens showing prettily. Cut flowers last unusually well.

PURPLE GLORY, BCD, Plant Pat. No. 946.

Long pyramidal clusters. Flowers **single**, 1 to 1½ inches wide, dark ruddy purple. Mid-late.

PURPLE HEART, BCD, Plant Pat. No. 832.

This very early variety has purplish black buds opening to deep purple, **single**, very large flowers attaining between 1¼ to 1½ inches in width, borne in large clusters. Preferred by many to Marceau which is high praise indeed.

SPLENDOR, BCD, Plant Pat. No. 837.

The dark ruddy purple buds open to purplish blue, moderately large **double** flowers in clusters of good size. Blooming time is from mid-season to late as it flowers over an unusually long period. The flowers are definitely not crowded together in the cluster, avoiding a trait that completely spoils so many otherwise good doubles. The bronzy hue of the new growth is another uncommon character.

NOVELTIES (continued)

SUNSET, BCD, Plant Pat. No. 937.

A striking late **double** that is unusual in several respects. Buds are deep mauve carmine; the fully double flowers with numerous long "petals" are large, over an inch wide and ruddy purple. Comes nearer to a real "double red" than anything else we have ever seen. In our opinion this surpasses Mrs. Edward Harding.

SWEETHEART, BCD, Plant Pat. No. 1128.

The very striking and unique contrast between the color of the buds and open flowers makes this a most desirable variety. The buds are deep ruddy mauve. The open flowers are medium large, **double**, palest possible lavender, appearing almost white. Clusters are of medium size, borne in mid-season.

SELECTED LIST

B 3	to 4 ft. branched.....	1.10
C 2	to 3 ft. branched.....	.90
D 1½	to 2 ft. branched.....	.75

Letters after varieties indicate sizes available.

Double Flowering Group

Alice Eastwood, BCD, mauve pink.

Ami Schott, BCD, blue.

Capt. Perrault, CD, pink.

Cora Brandt, CD, white.

Ellen Willmott, CD, white.

Gismonda, CD, reddish purple.

Jeanne D'Arc, CD, white.

Katherine Havemeyer, CD, purplish mauve.

Maximowicz (Maxie), CD, violet heliotrope.

Mrs. Edward Harding, CD, "called red".

Paul Thirion, CD, claret rose.

Prof. E. H. Wilson, CD, white.

Violetta, BCD, violet.

SELECTED LIST (continued)

Single Flowering Group

Blue Hyacinth, CD, blue.

De Miribel, CD, violet.

Firmament, BCD, blue.

Jan Van Tol, BCD, white.

Kate Sessions, CD, mauve purple.

Marceau, BCD, violet purple.

Marechal Foch, BCD, carmine pink.

Mme. F. Morel, BCD, rosy lilac.

Mme. Chas. Souchet, BCD, single blue.

Monument, BCD, white.

Mrs. W. E. Marshall, BCD, dark purple.

Pearl, CD, white.

Pres. Lincoln, CD, blue.

Prodige, CD, deep purple.

Volcan, CD, ruby purple.

Assorted, grafted from choice named varieties.

gal. **.65**

Oriental Magnolias

We have a very limited quantity of Magnolias this season in assorted sizes. Special quotation will be made on request.

Flowering Quinces

Chaenomeles (Cydonia) (4-5)

Our 20 years work in breeding better forms of Flowering Quince has been recognized by both California Horticultural Society and Royal Horticultural Society (of England) by their Awards of Merit. With two or three exceptions every variety we now offer was originated by us.

(Quinces must be ordered in multiples of 5 of a size and variety as they are bundled in that way when dug.)

NOVELTIES

CLARKE'S GIANT RED

The more than 20 years of Quince breeding by the late W. B. Clarke has resulted in producing what we believe to be the largest and finest red flowering Quince to date. **Clarke's Giant Red** is a deep, bright red of great brilliancy, 2½ inches or more in diameter. The enormous overlapping petals and prominent golden stamens make a showy contrast. It is an orderly shaped shrub with dark green serrated foliage. Extremely free blooming, having several crops of blossoms, resulting in a long flowering season.

3 to 4 ft.....	1.75
2 to 3 ft.....	1.40
1½ to 2 ft.....	1.10

CAMEO

The finest **double** flowering Quince we have found, having 20 or more petals and a pleasing, soft apricot-pink coloring. Flowers are large and borne in great profusion on the compact, bushy plants. This variety is outstanding in every way including color, doubleness and freedom of bloom.

3 to 4 ft.....	1.75
2 to 3 ft.....	1.40
1½ to 2 ft.....	1.10

FLOWERING QUINCES (continued)

SELECTED LIST

3	to 4 ft.....	1.40
2	to 3 ft.....	1.10
1½	to 2 ft.....	.90

Available in all sizes except where otherwise shown.

AFTERGLOW, double white becoming soft rose.

APPLEBLOSSOM, appleblossom pink.

BLOOD RED (2 to 3 and 1½ to 2 only)

CANDIDA, white

CARDINAL, very deep red.

CHARMING, soft shell pink.

CORAL BEAUTY, rosy-coral; lighter at center.

CRIMSON & GOLD, crimson with showy stamens.

ENCHANTRESS, shell pink.

FLAMINGO, coral pink.

MINERVA, vivid rose; low but erect.

(2 to 3 and 1½ to 2 only)

PINK BEAUTY, rose pink.

PINK LADY, clear pink.

RED CHIEF, double deep red.

RED RUFFLES, brilliant red.

ROSY MORN, very large soft carmine.

ROXANA FOSTER, deep shell pink.

SNOW, large pure white.

STANFORD RED, tomato red.

TEXAS SCARLET, watermelon red.

QUINCES by color only.

Red, Orange, Pink, White and Bicolor.

gal. grafted **.65**

Deciduous Shrubs

Unless otherwise stated, all plants in this section will be dug "bare roots".

ABELIOPHYLLUM distichum (5)

KOREAN ABELIALEAF

A dainty, small shrub bearing many racemes of narrow tubular pure white, fragrant flowers.

gal.50

ACER palmatum (5)

JAPANESE MAPLE

gal. grafted1.75

4 in. pot grafted.....1.25

Bonfire, new growth bright red. Very showy.

Sold out for this season.

Cut Leaf Green, (A. palmatum dissectum)

(4 in. pot only)

Cut Leaf Purple, (A. palmatum dissectum purpureum)

Ribbon Leaf Purple, (A. palmatum atropurpureum)

Laceleaf (new)

Foliage of spider-like appearance veined deep green with golden mottled center.

(4 in. pot only)

palmatum (Green Seedlings) (5)

jasminoides (8-9)

STAR JASMINE

Can be used as a climber or as ground cover.

Bears fragrant white flowers in profusion.

5 gal.**2.00**

gal.**.60**

WISTERIAS

For many years we have grown what we believe to be the best available collection of *Wisterias* in this country, both vines and tree form.

They range in color through dark purple, lavender, blue, pink and white, and in form, from the long-clustered floribunda (Japanese) types to the short-clustered *sinensis* (Chinese) and *venusta* (Silky) types.

We call your attention to the list and descriptions on the last page of this catalog, and invite you to try out these spectacular climbers and trees, as they are hardy throughout the United States, except for the coldest areas of Zones 3 and 4.

See Page 49 for Varieties and Prices.

Wisterias

For years Wisterias have been one of our most important items. Our collection is one of the most complete known. We have a large stock of grafted plants in both climbing and tree form.

Climbing form, grafted (4-5)

3 year	1.25
2 year	1.00

floribunda Geisha (4), blue

floribunda Issai, blue purple.

floribunda longissima, extra long light purple.

floribunda longissima alba, white.

floribunda rosea, pink

floribunda Royal Purple, violet purple. (25 cents per plant additional.)

floribunda violacea plena, double violet.

sinensis (5), Chinese Wisteria, blue.

sinensis alba, White Chinese Wisteria.

venusta alba (5), White Silky Wisteria.

venusta violacea, Silky Wisteria, lavender purple.

Tree Wisterias

Tree Wisterias develop into magnificent specimens and as such will carry probably a thousand or more beautiful flower clusters. Stems about 4½ ft.

NEW GARDEN ARISTOCRATS

For the first time in a number of years we have again issued a colored, illustrated brochure describing in some detail many of our newer and specialty items. Copies of *Garden Aristocrats* will be mailed to all nurserymen on our mailing list.

Garden Aristocrats is designed so that it can be used either as a mailing piece by the retailer to his customers, or as a broadside to be hung in the nursery for ready reference.

Additional copies are available to all nurserymen desiring them. Please write for further details.

ROSES

See our descriptive catalog No. 5701 for the finest "Northern California grown nature ripened" Bush and Tree Roses, both patented and non-patented varieties including the 3 All America winners for 1958.
